disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity,

Under this Assurance, this organization is committed not to discriminate against any such person in its policies and practices relating to applications for service, relating to treatment of beneficiaries and participants, including employment, rates, conditions and extension of service, admission or access to or use of any of its facilities, attendance at and participation in any meetings of beneficiaries and participants or the exercise of any rights of such beneficiaries and participants in the conduct of the operations of this organization.

# 2023 CAPITAL CREDITS

Copper Valley Telecom is a member-owned telecommunications cooperative, and as such, provides an annual allocation of earnings to its members. While wireless, internet, and landline services all accrue capital credits, customers must have landline service with CVT to be a member and be eligible to receive allotments.

Every year, we allocate a portion of that margin to each member's account, based upon their use of services. CVT uses funds not paid directly back to members to build facilities, repair the network, and make project improvements.

CVT measures each member's capital credits by subtracting expenses from revenue totals to determine the margin. When the co-op's finances permit, the Board of Directors may vote to refund or retire capital credits. **This year, Copper Valley Telecom is excited to announce that CVTC will be paying out a total of \$850,000 to its members!** These funds result from retiring the remaining part of allocations from 2003, 24.68% of retired allocations from 2004, and 29% from 2022. If you have any questions regarding your capital credit check or need to make changes to your mailing address, please email us at [cvtc-capc@cvtc.org](mailto:cvtc-capc@cvtc.org).
